## SUICIDE.

### After Confessing His Guilt.

### He Cuts His Throat With a Razor.

## THUS ENDS THE SCANDAL.

### Which Shocked France and the Military World.

NEW YORK, Sept. 1.—A special from Paris says: Everywhere the people are discussing the new phases of the Dreyfus affair. Those convinced of Henry's guilt insist that the confession does not alter the case. The Dreyfus supporters declare that a revision of his trial is inevitable. A fair has become a sort of nightmare. People can no longer talk about it calmly. Frenchmen of all shades of opinion are united, and say that Henry's rascality does not necessarily incriminate the General staff or acquit Dreyfus. It is now insinuated the suicide of Henry was connived at by French army authorities.

PARIS, Sept. 1.—Lieutenant-Colonel Henry committed suicide last night by cutting his throat with a razor, which he had concealed in his clothes.

During the trial Henry accused Colonel Piquart of falsifying telegrams. A duel followed, in which Henry was wounded. The next scene occurred in the chamber of deputies when Colonel Piquart denounced the letter a forgery, and as a result was censured, while Henry's villainy was rewarded by his being appointed Colonel Piquart's successor.

It is now said that Henry forged the letter with the express purpose of paralyzing Colonel Piquart's effort to expose Major Esterhazy, and to get a revision of the Dreyfus case. The letter was written in bad French, a fact which first led it to be regarded as spurious.

It is said that, if the cabinet decides upon a revision of the Dreyfus case, M. Cavaignac, the minister of war, will resign. The scene of Lieutenant-Colonel Henry's ayowal was most painful. When he saw it was almost useless to deny further, his tongue grew so thick that he was unable to speak. It was feared he would have a popliteal stroke. After his arrest he was permitted to visit his wife, while on the way to the fortress at Mont Valerian. She thought he had had a fit. He addressed her as "My poor wife," adding: "I am under arrest."

The officer accompanying him was under orders not to lose sight of him for a moment, and therefore he could not see his wife alone. All three proceeded to his bedroom to get necessary clothing. Henry then clasped his wife in his arms and exclaimed: "My conscience is pure and free from every stain."

This exclamation is much commented upon, as going to show that he may possibly have forged the letter under orders from his superiors.

Lieutenant Colonel Henry was a peasant's son. He was born in Poussy, in Maine, in 1848, and enlisted in a foot regiment as his brother's substitute in 1863. He had a good military record for bravery and inexorable discipline. He was a prisoner of war in 1870, and was wounded in the

## RIOTING.

### Suppressed at Galveston, Texas.

### Colored Longshoremen Are Troublesome.

## DELAWARE POISON CASE.

### Package of Bills Stolen From a Delivery Wagon.

SALEM, Sept. 1.—A riot occurred on the Mallory docks last evening. Recently the colored longshoremen organized a labor union. When the steamer Colorado arrived yesterday, the Mallory people were informed that they must employ union laborers and pay 50 and 60 cents per hour for day and night work. The increase was refused. About 1500 colored longshoremen congregated at the wharf and by a minor insurrection kept the regular Mallory longshoremen from going to work. Today the Mallory company set an extra crew to work unloading the ship and brought some colored laborers from Houston.

The bloodshed occurred when an effort was made to put the Houston men to work. Mayor Fly warned the crowd to keep back, and when an advance was made on the Houston negroes, Mayor Fly fired five shots into the crowd, wounding two of the negroes, who were advancing. A little later, the rioters made another advance. They were warned back again. Then Mayor Fly gave the order to fire. There was a terrible fusillade from each side for a minute, some of the negroes having revolvers. After the fusillade the crowd scattered. The fire department was called out to aid in the protection of the wharf property. An armed posse of citizens was organized.

The Houston men were put to work, and the Mallory boat is discharging.

E. H. Baker, white, who was shot in the right side, died just as he was put in the ambulance.

The injured are: Frank Robinson, colored, shot in the hip, will probably die; F. Middlebach, white; Robert Albert, colored; Emanuel Robinson, colored, and John Ingersol, white, all slightly wounded.

Identified Mrs. Botkin's Handwriting.

SAN FRANCISCO, Sept. 1.—Detective McVey, who came here from Delaware to procure the extradition of Mrs. Cordeha Botkin for the murder Mrs. J. P. Dunning and her sister, stated to the local newspapers that John P. Dunning, husband of one of the victims, had positively identified the anonymous letters sent to Mrs. Dunning as being written by Mrs. Botkin.

Chief of Police Lees is determined that Mrs. Botkin shall be tried in the state of Delaware, if possible. Tomorrow the grand jury will meet, and the attendance of witnesses who will not give their evidence to the authorities will be compelled. The indictment, should there be one, will not be on a charge of sending poison through the mails—a misdemeanor. Witnesses have been summoned from

## ALGERIA.

### How It Afflicts the Pacific Coast.

### Diseased Michigan Statesman-ship Fatal On the Atlantic.

## HAWAII TO NEW YORK.

### Incompetency of the War Department Condemned.

ALGERIA has afflicted our soldiers in both the Atlantic and Pacific campaigns. Describing the condition of the soldiers, stopping at Honolulu on their way to the Philippines, the Hawaiian Gazette editorially says: A large number of the enlisted men on the transports call at the office and make bitter complaints about the food and quarters on the transports. But much worse than this is the selling of belts, leggings and other national property by the soldiers in order to obtain a "square meal." The enlisted men are not beggars, and do not whine, but they cannot help disclosing their hunger. So much so that nearly every resident in town, including even the little children, repeat stories of hunger on board the vessels. And enlisted men are being daily fed by the scores in private families. One of the men used the language: "Two thousand miles away from home anxious to fight and willing to die for 'Old Glory,' but, all the same, tramps are glad to get a square meal through Honolulu charity." Some of the stories related by the men are, no doubt, strictly true. Some of them are exaggerated. One thing is certain. The condition of the men on the vessels now in port, or on at least one of them, is open to the severest censure. The men have not been properly treated.

Turning back to the Atlantic coast let us quote the following from the Montauk letter (August 22) of the correspondent of the New York Sun: The condition of some of the regulars in camp is awful and every day it gets worse. In the matter of baskets and bundles of delicacies, the regulars have been entirely ignored. They get nothing but army rations, while the volunteer regiments are getting

## TRADE IN PHILIPPINES.

### Otis and the Governor Start Business Moving.

LONDON, Sept. 1.—The Manila correspondent of the Times, telegraphing says: Pursuant to the decision of the Washington cabinet regarding trade with Spanish ports in the Philippines, General Otis, who is now acting governor of Manila, communicated on the subject with the Spanish General Rios, now acting governor general of the Spanish possessions in the Philippines, who replied today from Lloilo, agreeing to permit coastwise vessels to enter ports in the archipelago under Spanish or American flags.

Arrangements have been made to facilitate bona fide transfers of vessels to individuals legally entitled under the consular regulations to carry the American colors. A brisk trade is already started under these satisfactory conditions.

There has been considerable mauling of late in the suburbs of Manila. Five cases of abduction are already reported.

The English flour mills, in the immediate vicinity of the palace at Manila, were attacked by a band of robbers last evening, but the prompt action of the California regiment prevented serious mischief.

Drowned.

SAVANNAH, Sept. 1.—It has just been reported that Lieutenant Morgan, of the United States engineers corps, was drowned off Tibes in the storm yesterday, with six other soldiers. They went out in a yawl to rescue the sailors of an Italian bark. The yawl capsized and Morgan with the men were drowned. Second Mate Garibaldi of the Italian bark Noe also lost his life while trying to reach shore during the storm.

All trains are delayed by washouts.

Train Wreck.

SARASOTA, N. Y., Sept. 1.—A special to Herald says: Train No 5 of the New York Ontario & Western railroad, was wrecked at Ingalls crossing early this morning. The wreck was doubtless due to tramps who threw open the switch. Three dead are: Engineer B. C. Dowd, of Oswego; Fireman W. H. Hall; Norwich; Brake-man J. A. Osborne, Walton. Eight persons received painful wounds.

Wisconsin Pops.

MILWAUKEE, Sept. 1.—The Populist state convention today nominated John F. Shindler, of Milwaukee, Secretary of State M. H. Craig, Mukkanawago, superintendent of public instruction. The convention took a recess to await the action on the question of fusion by the Democratic convention.

War Prisoners Returning.

CORUNA, Sept. 1.—The Spanish transport, Isla de Panay, from Santiago, has arrived here with a detachment of surrendered Spanish troops. There were 17 deaths during the voyage.

Shafter Here.

NEW YORK, Sept. 1.—The transport Mexico, with Gen. Shafter and staff, has arrived at Fort Pond bay.

Reunion.

NIAGARA FALLS, Sept. 1.—Many distinguished members of the society of the Army of the Potomac are here attending the annual reunion of that organization.

Iowa Republicans.

DEBQUE, Ia., Sept. 1.—The Republican state convention met with an average attendance and great enthusiasm. Major Lacey was chosen temporary chairman.

more in the way of good things every day than they can possibly use. A more uncomplaining lot of men than these same regulars it would be hard to find. Many of them are sick, but they make no complaints. They just lie around their camps and try to get well, a business in which they are making little progress on account of the lack of nourishing food.

It is hard to believe that the Washington authorities are aware of the fact that the soldiers of the American army are still getting precisely the same kind of food that they got in Cuba, and that in one regiment, the Second cavalry, the men are actually on field rations, which means the provisions that were furnished to them in Cuba. This stuff must all be eaten up before they can get any fresh supplies, and as the meats are bad, the hardtack moldy and the men still weak and full of fever as the result of their hard campaign in Cuba, they are having a hard time of it. When the regulars want anything outside of what they get from the government, they generally go out and buy it. But even this means of getting nourishing food is shut off from them here, as few if any of them have any money. They have not been paid in three months and don't see any prospect of getting any money in the immediate future.

Today a 2nd cavalryman, a pale-looking fellow, came up to the Sun reporter on the road and sheepishly holding out couple of Mauser bullets said: "Are those worth a few cents to you. I took them from a Spaniard in Cuba and they might make interesting souvenirs."

"What do you want the money for?" asked the reporter.

"To get something to eat," said the soldier. "I'm starving to death here. I'm too weak to hold the rotten food the government is giving us and I want to get something decent to eat. There's three months' pay coming to me, but I can't get any of it."
